

The LEXINGTON CEMETERY COLUMBARIUM

MEMORIALIZATION AFTER CREMATION

The beauty of a memorial is that it provides a way for families to keep the memory of their loved one alive...so future generations can know about the unique individual who contributed to human life on this earth.

The Lexington Cemetery now offers columbarium niches in the peaceful setting overlooking the lower lake. This freestanding granite columbarium has six sides and 72 total niches. Each niche has an interior and exterior door that can be personalized with your loved one's information.

Other columbarium niches are located in the Lexington Mausoleum and the lower level of the Main Office Building. These columbarium niches are available in glass, bronze or marble.

For those who prefer a natural outdoor location as a permanent resting place, another option is a niche bench. The benches are aesthetically pleasing with locations available near lakes, gardens, surrounding trees or other areas in the beautifully landscaped cemetery.

To learn more about how you can memorialize the life of a loved one in our new Columbarium, contact us.
